Distribution of Funding for Salary Increases ("50/50 split")

(Note: The plan for distributing money is separate from the Successor Agreement, and was also approved by the Executive Council. It was based on PFT's best calculations.)

Once the tentative agreement was approved by the PFT Executive Council, the General Membership voted to ratify the agreement at a Contract Ratification meeting on May 4, 2017. The ratified agreement is based on the following recommendations by the Executive Council:

Retroactive to January 2017:

- **Contract Faculty Raise:** 50% of available funds go to contract and extra service salary schedule increases. This will amount to about a 1.529% increase, across the board on the schedules.
- **Part-Time Faculty Raise:** Both part-time schedules (with and without outside employment) will also receive the same 1.529% increase (approx), across the board (final numbers are still being calculated).
- **Part-Time Faculty Equity:** The rest of the funds will be applied to the hourly instructional salary schedule for part-time faculty (w/o outside employment). This will bring *each step* about 15.7240% closer to full parity with contract faculty.

For 2017 - 2018, the same process will be followed as above.

- This will result in about a 1.152% increase on all salary schedules (contract and part-time), across the board, beginning in Fall 2017.
- This will also bring the hourly instructional salary schedule for part-time faculty (w/o outside employment) another 13.8824% closer to parity.

Caveat for F17-18: If PCCD does NOT achieve 20,000 Resident FTES in state apportionment during 2017-18, the 2017-18 increase will "sunset" (disappear) at the end of the 2017-18 fiscal year.
